DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Claim Objections

2. Claims 4-11 are objected to because of the following informalities:

Claim 4: "the scale markings" in line 2 lacks antecedent basis.

Claim 5, the following do not properly refer to their antecedents introduced in claim 1:

- (a) "a scale" and "a gyro ring" in line 3,
- (b) "an arm" and "a parallel-kinematic machine" in line 4,
- (c) "a foundation" in line 5, and
- (d) "bearing pins" in line 4 although not for the pins being cylindrical.

Claims 4-7: According to claim 1 there is "a scale on a gyro ring". According to claims 4 and 5, there are "scale markings" which form "a scale on a gyro ring". According to claim 6 the scale markings are either of two shaped scales. Claim 7 in line 2 includes "the scale" but does not clearly identify if its antecedent is that of claim 1, that of claim 5 or the shaped scales of claim 6. The examiner requests that the applicant designate an antecedent relationship throughout the claims and maintain consistency.

Claim 9: "too" in line 1 should be --to--.

Claim 11:

- (a) "a foundation" in line 2 does not properly refer to its antecedent introduced in claim 1.
- (b) "the outer gyro ring" in line 3 does not properly address its antecedent of a gyro ring introduced in claim 1.

Allowable Subject Matter

- 3. Claims 1-3 are allowable.
- 4. Claims 4-11 would be allowable if rewritten to overcome the claim objections for claims 4-7, 9 and 11 set forth in this Office Action and to include all of the limitations of the base claim and any intervening claims.
- 5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

- 6. The prior art made of record is considered pertinent to applicant's disclosure. The prior art cited in PTO-892 disclose related methods and arrangements.
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to R. Alexander Smith whose telephone number is 571-272-2251. The examiner can normally be reached on Monday through Friday from 9:30-6:00.
